- 1) 8" 2-WAY 2 SPEAKER SYSTEM
- 2) 40W INPUT POWER AND HIGH EFFICIENCY
- 3) 40 ~ 25,000HZ FREQUENCY RESPONSE
- 4) GRILLE OF LATTICE - WORK DESIGNS

Try TA-7700 for use with BX-800 System

BX-800

8" 2-Way 2-Speaker System

LARGE (40W) INPUT PLUS HIGH (99 dB) EFFICIENCY:

Though small in physical size, this speaker has an input level suited adequately for both home and business uses. Because of the high efficiency rating (99 dB), it does not require a large-output amplifier. It can be driven at a small amplifier output.

GRILLE OF LATTICE-WORK DESIGNS:

Carved out of choice wood, and neatly hand-finished, the lattice-work designs of the grille impart a most elegant atmosphere.

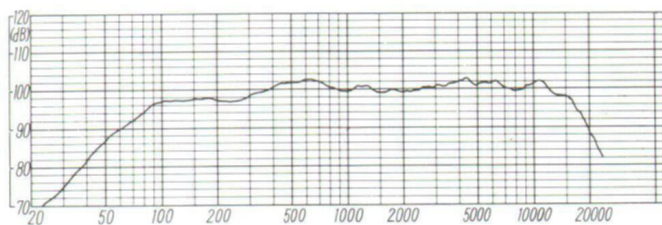

20 CM (8") WOOFER:

This woofer combines the powerful CORAL magnetic circuit with a large-diameter voice coil, a unique CORAL long-travel voice coil and the free edge. The magnetic circuit is based on a large-sized 25 cm (8") class magnet which features the traditional CORAL characteristics. A large input, high efficiency, minimum distortions and low frequency resonance are among the new features realized in this woofer.

9 CM (3 1/2") TWEETER:

A 9 cm cone tweeter is installed for high sound coverage. A powerful magnetic circuit a large-diameter voice coil of light-weight aluminum wires, assure a large input and a high level of efficiency

Specifications

Speakers:	8" woofer 3 1/2" tweeter
Music Power Input:	40 watts
Sensitivity:	99dB/W
Freq. Response:	40-25,000 Hz.
Crossover Frequency:	5,000 Hz
Impedance:	8 ohms.
Cabinet:	Bass-reflex type
Dimensions:	17 1/8" (H) x 10 3/4" (W) x 8 1/8" (D)
Net Weight:	17.6 Lbs.
