Aristocrat

**DIRECT-RADIATOR,
FOLDED-HORN CORNER ENCLOSURE**

for 12-in. Speakers and Separate 2 and 3-Way Systems

TRULY AUGMENTS BASS REPRODUCTION... *E-V horn-loading extends the bass range with full efficiency. Gives true high-fidelity reproduction.*

NO "BOOMINESS"—NO MUDDY "ONE-NOTE" BASS...
You hear those low bass tones clearly, cleanly, without distortion.

INCREASES SPEAKER POWER-HANDLING CAPACITY... *Cone excursion is held to a minimum by large air-load. Increases power handling capacity of any speaker by a multiple of 50%.*

PROVIDES BALANCED BASS AND TREBLE... *Extended bass range assures proper balance of low and highs for most enjoyable listening.*

The moment you listen to the ARISTOCRAT, you discover at least one octave of additional bass. This folded-horn corner enclosure is designed as a complete complement for E-V or any 12-in. full range loudspeaker, or E-V separate 2-way and 3-way speaker system. Placed in the corner of the room, it employs the walls as an extension of the acoustic-horn. Provides purity of extended bass never before achieved in a cabinet of this size—greatly enhances the highs—and achieves smoother, cleaner over-all musical balance. Efficiency is many times that obtained with conventional bass-reflex or vented type cabinets.

The ARISTOCRAT is authentically styled in fine veneers, with lustrous, hand-rubbed finish on all exposed sides. Brushed brass grille provides a graceful accent. Fits beautifully in any room.

THE ARISTOCRAT. Folded horn corner enclosure only.
Size 29 1/2 in. high, 19 in. wide, 16 5/16 in. deep.
Shipping weight: 38 lb.
Mahogany ... Net, \$69.00
Blonde (Llmed Oak) Net, \$76.00
Walnut Net, \$79.80

The 12-in. cone resonant-frequency of approximately 45 cps is one of the limiting factors of extreme bass reproduction. However, in the Aristocrat, the exclusive E-V feature of series-coupled frequency selective band-pass filters is interposed in the rear-horn loading path. In the usual living room, this patented feature assists in a powerful reinforcement down to the beginning of the second audible octave.

INTEGRATED 2-WAY AND 3-WAY REPRODUCERS RECOMMENDED FOR USE WITH THE ARISTOCRAT

The ARISTOCRAT enclosure is designed to produce optimum results with separate ELECTRO-VOICE drivers, full-range coaxial, and extended-range triaxial speaker systems. Compliance and cone resonance of these speakers match exactly the characteristics of the cabinet. However, this enclosure also improves the operation of other 12-in. drivers. Detailed specifications of the speakers shown at right are available separately.

Model SP12B Radax Coaxial: Economical, full-range 12-in. 2-way speaker of unusual performance. 15-20 watts. Response 30-13,000 cps. 16 ohms impedance. 1-lb. magnet. May be expanded to modified 10B and 10BA systems shown on opposite page.
Net, \$33.00

Model SP12 Deluxe Radax Coaxial: Super-efficient 12-in. 2-way speaker, 25 watts. Response 30-17,000 cps. 16 ohms impedance. 3-lb. magnet. May be expanded into modified 111 and 111A systems, shown on following page, for finer reproduction.
Net, \$65.00

Model 12TRXB Triaxial: Popular 12-in. 3-way reproducer with completely extended high end. Combines the famous E-V T35B Super-Sonax VHF Driver, Radax Propagator, and large bass cone. 20 watts. Response 35-15,000 cps. 16 ohms impedance. 1-lb. 2-oz. magnet.
Net, \$64.00

Model 12TRX Deluxe 12-in. 3-way reproducer combining T35 Super-Sonax VHF Driver, Radax Propagator, and large bass cone. 25 watts. Response 30-15,000 cps. 16 ohms impedance. 3 1/2-lb. magnet. Can be expanded to separate multi-way system.
Net, \$120.00

Aristocrat COMPLETE WITH

FACTORY-INSTALLED SEPARATE 3-WAY SYSTEMS

ARISTOCRAT IA with 108A 3-Way System

Includes all components of the 108 system used in ARISTOCRAT, plus the T35B Super-Sonax VHF Driver, X36 3500-cps Electrical Crossover, and an additional AT37 Control. Divides the audio spectrum into three reproducing sections. Permits individual adjustment of level and brilliance. Complete with components wired and installed in cabinet. Shipping weight: 61 lb.

Mahogany...Net, \$225.00 Blonde (Limed Oak)...Net, \$232.00 Walnut...Net, \$235.80

ARISTOCRAT III with Deluxe 111A 3-Way System

Includes all components of the 111 system used in ARISTOCRAT, plus the T35 Super-Sonax VHF Driver, X36 3500-cps Electrical Crossover, and an additional AT37 Control for individual adjustment of level and brilliance. Divides the audio spectrum into three sections for even finer high-fidelity reproduction. Complete with components wired and installed in cabinet. Shipping weight: 74 lb.

Mahogany...Net, \$297.00 Blonde (Limed Oak)...Net, \$304.00 Walnut...Net, \$307.80

All components of E-V systems available individually. Enclosure is available in Do-it-Yourself Kit Model KD6.

Designed to provide convenient package additions to any full-range speaker or separate 2-way system, E-V Building Block Kits contain matched sets of components complete with wiring harness and individual instruction. A complete description of these kits is given in the Components Section Catalog No. 118.

ARISTOCRAT SEPARATE 2-WAY AND 3-WAY SYSTEMS

for Easy "Do-it-Yourself"

108 2-WAY SYSTEM

Complete system as used in Aristocrat, with mounting board and cable harness, less cabinet. Shpg. wt. 39 lb.

Net, \$114.00

108A 3-WAY SYSTEM

Complete system as used in Aristocrat IA, with mounting board and cable harness, less cabinet. Shpg. wt. 50 lb.

Net, \$149.00

111 2-WAY SYSTEM

Complete system as used in Aristocrat, with mounting board and cable harness, less cabinet. Shpg. wt. 55 lb.

Net, \$176.00

111A 3-WAY SYSTEM

Complete system as used in Aristocrat III, with mounting board and cable harness, less cabinet. Shpg. wt. 68 lb.

Net, \$123.50
