THE EMPIRE. BLS enclosure only. Size 29 $\frac{3}{4}$ in. high, 32 in. wide, 16 in. deep. Shipping weight: 45 lb.

Mahogany Net. \$85.00
Blonde (Limed Oak) Net. \$91.00
Walnut Net. \$95.55

*Bilinear Lenticular Slot Enclosure. Employs two vertical parallel porting slots to extend and augment lower bass range.

You can enjoy true high-fidelity reproduction of music with the enchanting EMPIRE. This low-boy enclosure permits you to utilize the extra efficiency of 15-in. speakers and separate speaker systems in a versatile, space-saving design. Has "built-in" corner. Operates against flat wall, or in a corner of the room for augmented bass response. Uses principle of increased reflected speaker inductance to lower Q of rear air-loaded mass. Gives smooth, extended bass reproduction without displeasing peaks and valleys. Provides proper tonal balance of the lows and highs. Cabinet is strongly braced to eliminate spurious resonances.

INTEGRATED 2-WAY AND 3-WAY SPEAKERS RECOMMENDED FOR USE WITH THE EMPIRE

You can combine economy with efficiency simply by employing the ELECTRO-VOICER 15-in. Radax Coaxial 2-way or Triaxial 3-way speaker in the EMPIRE. Although this enclosure improves the performance of any 15-in. speaker, the EV SP15B and 15TRXB shown at right are designed to match the characteristics of the cabinet and assure full-ut reproduction. The SP15B can be used later for an expanded, and finer multi-way Empire I or Empire IA system. The EMPIRE also can be used with the still more efficient SP15 Coaxial or 15TRX Triaxial speaker recommended for the REGENCY.

Model SP15B Radax Coaxial. Efficient 15-in. 2-way wide range speaker employs the E-V Radax principle of high-frequency propagation 15-20 watts. Response 30-15,000 cps. 16 ohms impedance. 1-lb. magnet. Can be used instead of the 15BW low-frequency driver when expanding to the 116 2-way or the 116A 3-way system listed on the following page. Net. \$43.00

Model 15TRXB Triaxial. Compact, economical 15-in. 3-way reproducer, with exclusive E-V concentric mounting for full-range, complete room coverage. Combines the T35B Super-Sonic VHF Driver, Radax Propagator, and large bass cone in one integral assembly. 20 watts. Response 30-15,000 cps. 16 ohms impedance. 1-lb. 2-oz. magnet. Has built-in crossover and adjustable brilliancy control. Net. \$79.00

*Empire***COMPLETE WITH FACTORY-INSTALLED
SEPARATE 3-WAY SYSTEMS****EMPIRE IA with 116A 3-Way System**

Provides an economical system that divides the audio spectrum into three sections for more efficient operation. Includes all components of the 116 system with the addition of the T35B VHF Driver, X36 Electrical Crossover, and an additional AT37 Control for individual adjustment of both level and brilliance. Complete with components wired and installed in EMPIRE enclosure. Shipping weight: 74 lb.

Mahogany Net, \$250.00 Blonde (Lined Oak) . . . Net, \$221.00 Walnut . . . Net, \$260.55

EMPIRE III

Includes the Model 114B separate 3-way system listed under the Regency on the following page. Completely wired and installed in the EMPIRE enclosure. Shipping weight: 92 lb.

Mahogany . . . Net, \$392.00 Blonde (Lined Oak) . . . Net, \$359.00 Walnut . . . Net, \$342.60

Designed to provide convenient rack additions to any full-range speaker or separate 2-way system. The Mounting Block consists of matching sets of component complete with wiring harness and individual instruction. A complete description of these kits is given in the Components Section Catalog No. 118.

EMPIRE SEPARATE 2-WAY AND 3-WAY SYSTEMS

for Easy "Do-it-Yourself"

116 2-WAY SYSTEM Complete speaker system as used in the Empire with mounting board and cable harness, less cabinet. Shipping weight: 43 lb.
Net, \$125.00

116A 3-WAY SYSTEM Complete speaker system as used in the Empire IA, with mounting board and cable harness, less cabinet. Shipping weight: 55 lb.
Net, \$161.00

For Models 114A 2-way and 114B 3-way separate systems, see listing under Regency on following page.

Components of E-V systems are available individually. Enclosure is also available in Do-it-Yourself Kit Model KD5.
