Jensen

MANUFACTURING COMPANY

World's Quality Standard for More Than a Quarter Century

Now You Can Have The Fun Of Building Your Own Hi-Fi Speaker System with Jensen Kits

Now you can have famous JENSEN authentic high fidelity loudspeaker performance plus the fun and satisfaction of building your own choice of cabinet or built-in unit for your home. The JENSEN high fidelity speaker system kits give you the same high-quality loudspeaker matched components used in JENSEN'S factory assembled complete reproducers; you "do it yourself" and save. Just select the JENSEN loudspeaker kit that best fits your needs and budget—follow the simplified detailed plans furnished with each JENSEN kit and you'll be set to enjoy the truly fine sound reproduction for which JENSEN reproducers are world famous.

JENSEN SPEAKER KITS ARE COMPLETE

Every JENSEN authentic high fidelity loudspeaker kit comes to you packed in a single carton with all the matched components, frequency division units, controls, special mounting brackets and wiring materials for easy installation in your own free-standing cabinet or built-in music area. Included also, are detailed constructional plans and information to help you build the acoustically correct enclosure for the best reproduction of sound with your JENSEN loudspeaker kit.

BUILD WITH CONFIDENCE—AT LOW COST

It's easy to select and order the kit you want. Everything is in one package. Instructions are simple and clear—no previous experience or technical skill required.

You build the enclosure with confidence that your final system will give the excellent reproduction you would expect from JENSEN'S more than a quarter century of specialization in fine loudspeakers.

Sold by High Fidelity dealers throughout the country and abroad. Write for name of dealer nearest you.

SELECT THE KIT AND CABINET YOU WANT FROM THIS COMPLETE MANUAL OF DO-IT-YOURSELF DESIGNS
