THE QUALITY STORY OF PIONEER

Quality comes with painstaking experience. And PIONEER has over 30 years of it. Our hundreds of dedicated engineers combine the latest knowledge audio state of the art with the highest quality material and components to provide the ultimate in performance. PIONEER's exhaustive program of quality control is constantly maintained since we produce each single component on our own production lines. Each step along with the way is typical of PIONEER's dedication to quality craftsmanship. The end result: High Fidelity components designed and constructed to provide the pinnacle of sound reproduction combined with the gracious elegance of contemporary design.

NEX MAIL ORDER ITEM

340 WATT STEREO RECEIVER

A powerful solid state unit that features AM/FM auto-tuning, exclusive center-tuning and convenient remote control operatable from distances up to 23 feet. Single touch of the auto tuning button activates the tuning needle along the dial until strong station signal is reached. New servo-mechanism positions needle directly on station signal and "locks" it in for true accuracy.

Receiver provides 340 watts music power output rated at 4 ohms (208 watts total at 8 ohms, IHF rating). Drives any type speaker system with ease, even low-efficiency models.

Tuner uses 5 IC's and 2 crystal filters to provide unusually low sensitivity of $1.6\mu\text{V}$. Pulls in weak and very distant stations with distinctive clarity.

Music Power:	340 watts (at 4 ohms), 208 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.5% (at 1KHz, continuous power output)
Frequency Response:	20-70,000Hz \pm 2dB
FM Usable Sensitivity:	$1.6\mu\text{V}$ (IHF)
FM Separation:	40dB (at 1KHz)
Frequency Range:	FM; 87.5-108MHz, AM; 525-1,605KHz
Power Supply:	110, 120, 130, 220, 240V (switchable)
Dimensions:	$19\frac{1}{8}$ (W) \times $5\frac{3}{4}$ (H) \times $15\frac{1}{8}$ (D) inches
Weight:	33 lb.

SX-9000

FACEX MAIL ORDER ITEM

NEX MAIL ORDER ITEM

240 WATT STEREO RECEIVER

World's first quality AM/FM receiver to include its own reverberation amplifier and stereo microphone mixing. Handles two tape decks, two record players, two headsets and two microphones, offers more versatility and performance than any receiver in its price range.

SX-9000 provides 240 watts of power (at 4 ohms, IHF rating), enough to handle any speaker system made today. Features tone color selector to give "vivid", "bass", "flat", and "soft" colors to the musical program.

IHF sensitivity is $1.6\mu\text{V}$, one of the very lowest figures available on any receiver. FM front end uses a FET and a 4-gang variable capacitor. Weak stations are easily picked up and reproduced with full-body.

Music Power:	240 watts (at 4 ohms), 150 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.5% (at 1KHz, continuous power output)
Frequency Response:	10-35,000Hz \pm 1dB
FM Usable Sensitivity:	$1.6\mu\text{V}$ (IHF)
FM Separation:	40dB (at 1KHz)
Frequency Range:	FM: 87.5-108MHz, AM; 525-1,605KHz
Power Supply:	110, 120, 130, 220, 240V (switchable)
Dimensions:	$20\frac{3}{8}$ (W) \times $7\frac{5}{8}$ (H) \times $13\frac{3}{8}$ (D) inches
Weight:	34 lb. 8 oz.

PACEX MAIL ORDER ITEM

NEX MAIL ORDER ITEM

180 WATT STEREO RECEIVER

A big power receiver, beautifully designed, that features advanced circuitry through and through, and includes a dynamic microphone for microphone mixing. Handles up to three different loudspeaker systems, uses silicon transistors for low-noise music power.

Tuner sensitivity is a first-rate $1.7\mu\text{V}$, front-end includes an FET and a 4-gang variable capacitor for superb image rejection and signal-to-noise ratio.

Microphone mixing offers unusual flexibility for a receiver in this price range, permits voice announcements even while music plays with a variety of speaker combinations.

Music Power:	180 watts (at 4 ohms), 145 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.5% (at 1KHz, continuous power output)
Frequency Response:	10-100,000Hz $\pm 3\text{dB}$
FM Usable Sensitivity:	$1.7\mu\text{V}$
FM Separation:	38dB (at 1KHz)
Frequency Range:	FM; 87.5-108MHz, AM; 525-1,605KHz
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	$18\frac{1}{16}(\text{W}) \times 5\frac{1}{16}(\text{H}) \times 14\frac{1}{2}(\text{D})$ inches
Weight:	25 lb. 2 oz.

SX-1000TW

PACEX MAIL ORDER ITEM

NEX MAIL ORDER ITEM

150 WATT STEREO RECEIVER

A component of quality standards that features 150 watts of music power output (at 4 ohms, IHF rating) and very low distortion. Includes full complement of audio controls, highly advanced circuitry. Powers two speaker systems.

Solid-state FM stereo tuner section uses FET's and integrated circuits to pull in weak, distant signals, gives clarity of reception while rejecting undesirable noise and image signals.

Frequency response of the audio section is $\pm 1\text{dB}$, from 20 to 50,000Hz overall, remarkable for a receiver priced as reasonable as the SX-1000TW.

Music Power:	150 watts (at 4 ohms), 130 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.5% (at 1KHz, continuous output)
Frequency Response:	20-50,000Hz $\pm 1\text{dB}$
FM Usable Sensitivity:	$1.7\mu\text{V}$ (IHF)
FM Separation:	38dB (at 1KHz)
Frequency Range:	FM; 87-108MHz, AM; 525-1,605KHz
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	$15\frac{3}{4}(\text{W}) \times 5\frac{1}{2}(\text{H}) \times 13\frac{3}{4}(\text{D})$ inches
Weight:	23 lb.

100 WATT STEREO RECEIVER

A versatile receiver, perfect for any home music installation, that delivers up to 100 watts total music power at 8 ohms (IHF rating). Frequency response is from 10 to 100,000Hz, two tuning meters are included for FM signal strength and station centering.

Receiver is stunningly styled in oiled walnut with brushed chrome front panel. Controls are placed for convenient access.

FM front-end features single-unit monolithic IC. Four IC's and a low noise FET are also included, providing IHF usable sensitivity of 1.7 μ V.

Music Power:	100 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.5% (at 1KHz, continuous power output)
Frequency Response:	10-100,000Hz \pm 3dB
FM Usable Sensitivity:	1.7 μ V (IHF)
FM Separation:	42dB (at 1KHz)
Frequency Range:	FM; 87.5-108MHz, AM; 525-1,605KHz
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	18 $\frac{1}{16}$ (W) \times 5 $\frac{5}{8}$ (H) \times 14 $\frac{1}{2}$ (D) inches
Weight:	25 lb. 2 oz.

SX-770

NEX MAIL ORDER ITEM

70 WATT STEREO RECEIVER

Low power receiver designed especially for home stereo installations. Produces clean, clear sound, enough to drive most quality loudspeakers systems now on the market.

Stylish black front panel adds to the unit's overall attractiveness. FM tuning needle glides over blue-illuminated tuning scale. Oiled walnut cabinet included.

FM section features low-noise silicon transistors, 2 IC's and FET for high sensitivity and improved signal-to-noise ratio. Other circuitry features are usually found in much more expensive receivers.

Music Power:	70 watts (at 4 ohms), 52 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.8% (at 1KHz, continuous power output)
Frequency Response:	20-40,000Hz \pm 3dB
FM Usable Sensitivity:	1.8 μ V (IHF)
FM Separation:	40dB (at 1KHz)
Frequency Range:	FM: 87.5-108MHz, AM; 525-1,605KHz
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	16 $\frac{15}{16}$ (W) \times 15 $\frac{1}{16}$ (H) \times 13 $\frac{3}{4}$ (D) inches
Weight:	21 lb. 2 oz.

SX-440

NEX MAIL ORDER ITEM

40 WATT STEREO RECEIVER

A budget-priced receiver, with outstanding performance features that makes it perfect for small home stereo installations. Has almost all controls available on more expensive units.

Pioneer's stereo design sensibility dominates this handsome unit, which features a midnight black front panel finished with special acrylic resin. Face illuminates when set is turned on for easy-to-see AM/FM readings.

Delivers 40 watts of music power at 4 ohms. FM section includes a FET and 3-gang variable capacitor. FM sensitivity is $2.5\mu\text{V}$, extremely good for a receiver of this low price. All stereo terminal facilities included.

Music Power:	40 watts (at 4 ohms), 33 watts (at 8 ohms)
Harmonic Distortion:	Less than 1% (at 1KHz, continuous power output)
Frequency Response:	20-70,000Hz $\pm 3\text{dB}$
FM Usable Sensitivity:	$2.5\mu\text{V}$ (IHF)
FM Separation:	35dB (at 1KHz)
Frequency Range:	FM: 87-108MHz, AM: 525-1,605KHz
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	$15\frac{5}{16}(\text{W}) \times 5\frac{3}{16}(\text{H}) \times 15(\text{D})$ inches
Weight:	17 lb. 10 oz.

REVERBERATION AMPLIFIER

A solid state unit that adds a brilliant "living presence" to all sound reproduced by any stereo system. Adds richness, depth, and audio brilliance to voice, radio, records or tapes.

Uses fully transistorized double scatter system to blend direct signals from original music source. Adds reverberation effects to speakers or to any recorded sounds.

Easily installed, easily operated with use of tape and reverberation mode selectors. Amount of reverberation is visually indicated in front panel window.

R.M.S. Output Voltage:	330mV (at 1KHz, reverberation time; MIN)
Harmonic Distortion:	Less than 0.2% (at 1KHz, reverberation time; MIN)
Frequency Response:	20 - 35,000 $\pm 2\text{dB}$ (reverberation time; MIN)
S/N Ratio:	65dB
Reverberation Time:	0 - 2.5 sec. (at 1KHz)
Power Supply:	110, 120, 130, 220, 240V (switchable)
Dimensions:	$13\frac{1}{8}(\text{W}) \times 5\frac{1}{2}(\text{H}) \times 10\frac{3}{8}$ inches
Weight:	10 lb. 2 oz.

NEX MAIL ORDER ITEM

200 WATT PROFESSIONAL AMPLIFIER

A solid state pre/main stereo amplifier, one of Pioneer's most advanced, unparalleled in performance among all quality amps now available today.

Provides 200 watts of music power at 4 ohms (IHF). Uses low-noise silicon transistors and a direct-coupled 3-stage E-E feedback circuit for improved frequency response and extremely low distortion.

Unusual versatility. Pre and main amplifiers may be used independently. Inputs are included for a variety of cartridges and 2 sets of speaker terminals. Accurate 3dB step controls for bass and treble adjustment. Other features include hi-low filters, special muting switch, and adaptability of the unit as channel amplifier.

Music Power:	200 watts (at 4 ohms), 145 watts (at 8 ohms)
Harmonic Distortion:	Less than 0.08% (40 watts, at 1KHz)
Frequency Response:	20-50,000Hz \pm 1dB
Power Bandwidth:	20-50,000Hz (distortion 0.3% IHF)
Audio Input:	PHONO: MM/MC/CER, MIC, TAPE HEAD, TAPE MONI, TUNER, AUX, MAIN IN, DIN jack
Power Supply:	110, 117, 130, 220, 240V (switchable)
Dimensions:	$15\frac{5}{16}$ (W) \times $5\frac{1}{2}$ (H) \times $13\frac{11}{16}$ (D) inches
Weight:	27 lb.

CS-63DX

4-WAY 6-SPEAKER SYSTEM

A highly advanced loudspeaker system for professional applications, designed to provide a listening experience equivalent to the outstanding capabilities of Pioneer amplifiers and tuners.

Features massive 15-inch woofer, two special mid-range units and three quality horn tweeters for smooth highs. All elements are perfectly balanced for total sound realism.

Handles up to 80 watts of power input, features special tone control to compensate for individual acoustical qualities of all rooms. Crossover network assures that each speaker handles only those frequencies designed for it.

Enclosure Type:	Infinite baffle type
Mounted Speakers:	15-inch woofer, 5-inch mid-range × 2, horn tweeter, horn super tweeter × 2
Impedance:	8 ohms
Frequency Response:	20–22,000Hz
Maximum Input Power:	80 watts
Dimensions:	18 $\frac{7}{8}$ (W) × 28 $\frac{3}{8}$ (H) × 13 $\frac{1}{16}$ (D) inches
Weight:	63 lb.

C-5600A

MULTI-AMPLIFIER HOME STEREO SYSTEM

A compact stereo unit in one attractive package, designed for the serious music listener. Offers a multi-amplifier system with professional-quality AM/FM tuner, record player and speakers. Gives total power for both channels of 60 watts.

Turntable is automatically-operated, includes magnetic type cartridge and quality diamond stylus. AM/FM tuner has latest FET circuitry for fine selectivity and sensitivity.

Added to the distinctiveness of the whole unit is its deluxe furniture styling and control accessibility. It fits perfectly into most rooms, or the interior design of a room may easily be built around it.

CENTRAL CONTROL UNIT

Frequency Range: FM; 87,5 - 108MHz, AM; 525 - 1,605KHz
 FM Separation: More than 35dB (at 1KHz)
 Music Power: 60 watts total (at 8 ohms, IHF)
 Operating Controls: Tone controles (bass, treble), Loudness contour switch, DIN jack, Stereo headphone jack
 Turntable: Automatic turntable(auto lead-in, auto-return, auto-cut, auto-repeat, arm elevation), 33 $\frac{1}{3}$, 45 rpm. Included induced magnet type cartrige with 0.5 mil diamond stylus, Stylus pressure 2 to 3 grams.
 Dimensions: 21 $\frac{1}{16}$ (W) \times 8 $\frac{1}{8}$ (H) \times 14 $\frac{3}{16}$ (D) inches
 Weight: 33 lb.

SPEAKER SYSTEM UNIT

Speakers: 8-inch speaker for medium and lower ranges, 2 $\frac{1}{2}$ -inch cone tweeter
 Dimensions: 12 $\frac{3}{16}$ (W) \times 22(H) \times 9 $\frac{3}{4}$ (D) inches
 Weight: 18 lb. 14 oz. (each)

CODE NO.: 497.530.521

2-WAY STEREO HEADPHONES

A high-quality stereo headphone set, complete with volume and tone controls for each earpiece. Pioneer's finest headphone set, designed for true stereo home listening.

Each earpiece contains 3-inch cone-type element for rich dynamic bass and a horn-type element for subtle, clean highs. Volume controls provide perfect right and left channel balance.

Set is designed for maximum comfort, lightweight, cushioned for long-wearing without fatigue.

Matching Impedance: 8 ohms
Frequency Response: 20-20,000Hz
Power Handling
Capacity: 0.5 watts (each channel)
Weight: 1 lb. 6 oz. (without cord)

SE-30A NEX MAIL ORDER ITEM

STEREO HEADPHONES

Excellent stability and an extremely wide frequency response range are the features of this attractively-priced headphone set.

Tonal quality is soft and free of harsh, strident peaks. Each earpiece assembly contains a cone type high fidelity loudspeaker unit designed for headphone use.

Headbands are adjustable for perfect, fatigue-free fit. Unit is handsomely designed for maximum use.

Matching Impedance: 4 to 16 ohms
Frequency Response: 20-20,000Hz
Power Handling
Capacity: 0.5 watts (each channel)
Weight: 14.4 oz. (without cord)

CODE NO.: 497.530.531

PACEX MAIL ORDER ITEM

STEREO HEADPHONES

A budget-priced headphone set that gives virtually distortion free sound—probably the finest value among all headphones on the marketplace today.

Gives volumes the equal of fine concert hall sound with very low amplifier or receiver power. Frequency response is wide, sound is natural and perfectly balanced.

Styling and shape of this set reflects the finest of Pioneer's human engineering—its light weight permits long hours of musical enjoyment without fatigue.

Matching Impedance: 4 to 16 ohms

Frequency Response: 20-18,000Hz

Power Handling

Capacity: 0.5 watts (each channel)

Weight: 13 oz. (without cord)

JB-21

JUNCTION BOX

For stereo system not equipped with a headphone jack, Pioneer makes this convenient attachment that allows the use of any stereo headphone set. Connects easily to amplifier or receiver, and gives a choice of using headphones only, loudspeakers only or simultaneous operation of both.

JB-22

JUNCTION CORD

This handy accessory permits the simultaneous operation of two stereophonic headsets. Its inputs jack fits Pioneer Model JB-21 junction box.

JB-23

JUNCTION CORD EXTENSION

This 15 feet extension cord allows complete freedom of movement for headphone listening. It fits Pioneer Model JB-22 junction cord or Model JB-21 junction box.

ORDERING INSTRUCTIONS

1. PRINT (do not write) all information required.
2. If you wish to send items to several addresses, a separate order blank must be filled out for each address.
3. Enter your name, rank or grade, serial number together with your complete return mailing address.
This information is essential in order to notify you when shipment has been made and to send you any refund due.
4. List the item you wish to order making sure that the code number, price, weight, packing charge (if necessary), insurance and parcel post fee exactly shown on the catalog.
5. Under the section titled "SHIP THIS ORDER TO", enter the name and address of the person to whom the order is to be shipped.
6. In case of PACEX mail order, send order forms IN DUPLICATE to the address shown below, together with Check or Money Order made payable to "JAPAN REGIONAL EXCHANGE-PACEX."

PACEX MAIL ORDER
JAPAN REGIONAL EXCHANGE-PACEX
APO San Francisco 96323

In case of Navy Exchange mail order, send order forms in TRIPLICATE to the address shown below, together with Check or Money Order made payable to "NAVY EXCHANGE #260-010".

NAVY EXCHANGE #260-010
CODE 700
FPO Seattle 98762

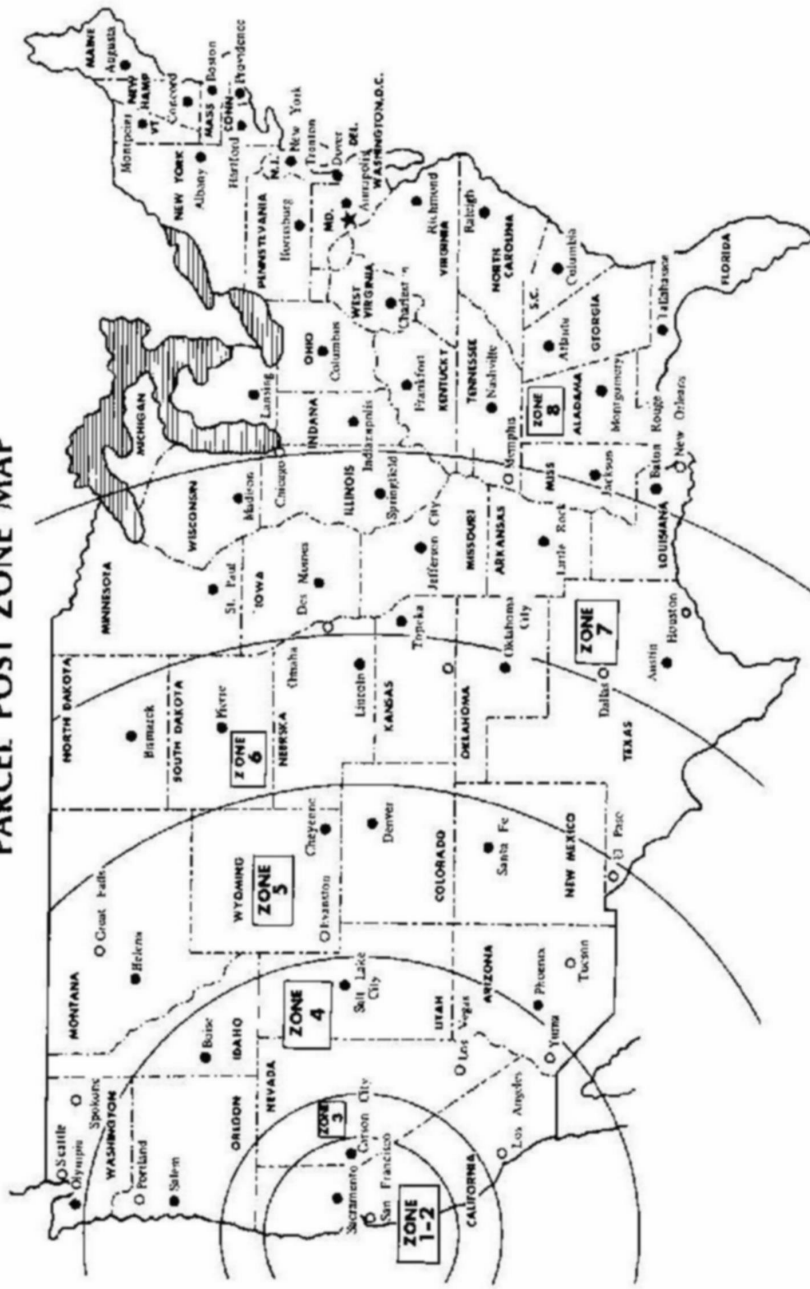

7. Merchandise can be mailed through PACEX MAIL ORDER or NAVY EXCHANGE MAIL ORDER to the U.S., its territories, or any APO and FPO.

MAILING INSTRUCTIONS

HOW TO USE THE PARCEL POST ZONE MAP

1. The mailing zones start from San Francisco. All APO's and FPO's of San Francisco, California are branches the San Francisco Post Office.
2. This map is NOT to be used for computing charges for Air Mail parcel post. Air mail is about eighty cents per pound (plus 8 cents per package) depending on destination.
3. The number appearing within each area on the map is the postal zone.
4. Where a zone is on the borderline, the next higher zone should be used. The correct determination will be made by the Mail Order Service. Any excess postage will be refund but receipt of too little postage may cause your order to be delayed.

PARCEL POST ZONE MAP

All APO's and FPO's in the Pacific Area are in the Local Zone. All states, territories, and possessions of the United States which are outside the continental limits of the United States are in Mailing Zone 8. These include Hawaii, Puerto Rico and Alaska.

WARRANTY POLICY

The fame of PIONEER products and the reputation of the company have grown over the years because of leadership in design and engineering bolstered by meticulous craftsmanship. This has resulted in a steady, healthy growth of the company where today it is the largest manufacturer of loudspeakers in the world (production capacity of more than three million units a month) and a leading producer of such Hi-Fi components as amplifiers and receivers. PIONEER Speaker Systems, Turntables and complete Stereo Systems have repeatedly won governmental citations for excellence in design. Their performance will meet or exceed your most exacting standards, too.

Pioneer products are warranted under normal installation and use against any and all manufacturing defects from the date of sale to the original purchaser for the period indicated below. We agree to repair or replace without charge to the purchaser, any part proved to be defective, within the warranty period in U.S.A. or Far East Area, provided that the Warranty Card has been completed and registered within 10 days after original purchase or receipt, from U.S. Military Exchanges in the Far East. This warranty excludes appearance items and cabinetry which must be assumed to be the responsibility of the purchaser at the time of original purchase. This further excludes delivery charges to or from authorized point of service. This warranty will be null and void on any product subjected to misuse, negligence, accident, unauthorized service or repair or alternations made in any way.

ONE (1) YEAR FOR STEREO RECEIVERS, STEREO HEADPHONES AND TURNTABLES excluding Cartridges & Styli.
 THREE (3) YEARS FOR LOUDSPEAKER SYSTEMS.
